

Operational Plan

PharmD Program

1445 H

Introduction

The PharmD program is a professional university degree offered by College of Pharmacy (COP), King Khalid University (KKU). This program is designed to provide knowledge, practical skills and competence to KKU COP students to enter the pharmacy profession. The program is also designed to provide the ever-changing dynamics of Pharmacy education and good manufacturing practice of pharmaceuticals; empower the graduate pharmacists with both the expert knowledge and practical experience to serve the community and offer expert advice on proper drug use and patient counseling. We integrate science and practice throughout the program, giving our graduates a sound understanding of how to apply the knowledge to solve clinical problems and work as an independent researcher in the field.

Procedures for Developing the Plan:

1) The Committee and Responsibilities

| Serial number | Name | Title |
|---------------|--------------------------|--------|
| 1. | Dr Taha Alqahtani | Chair |
| 2. | Dr Ali Alamri | Member |
| 3. | Dr Adel Al Fatease | Member |
| 4. | Dr Hamdy Abdelkader | Member |
| 5. | Dr Noohu Khan | Member |
| 6. | Dr Rajalakshmi Vasudevan | Member |

2) Committee Tasks

- 1. Develop an Operational Plan for the PharmD Program
- 2. Monitor the Implementation of the Operational Plan
- 3. Prepare an Annual Report on the Progress of the Operational Plan's Implementation

3) Foundational Sources for the Operational Plan

- 1. The King Khalid University Strategic Plan
- 2. The College of Pharmacy Strategic Plan
- 3. The Annual Reports of PharmD Program

4) Setting the Plan's Objectives

The objectives delineated in this operational plan have been meticulously designed to harmonize with the university's vision, mission, and strategic objectives for the academic year 1445 H. Comprehensive elaboration on these objectives is provided in the subsequent sections.

University Vision, Mission, and Goals

Vision

A globally leading university committed to human empowerment, regional development, and economic enhancement.

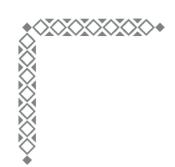

Mission

To provide an academic environment conducive to teaching, learning, scientific research and social contribution through optimal utilization of our resources.

Goals

- 1. Improve the quality of teaching and learning
- 2. Providing an attractive academic environment
- 3. Promote effective partnership with the community
- 4. Supporting and developing scientific research
- 5. Postgraduate development
- 6. Development of institutional performance
- 7. Development of financial resources

College of Pharmacy Vision, Mission, and Goals

Vision

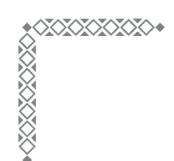

To accomplish national and international recognition for excellence and innovation in pharmacy education, scientific research, and community service.

Mission

Graduating pharmacists capable of playing an effective and efficient role within the health care professional team to serve the community through direct patient care, scientific research and community engagement.

Goals

- 1- Improve the quality of pharmacy education and practice
- 2- Recruit, develop, and retain distinguished faculty members to improve education and research
- 3- Promote educational environment and cooperation among pharmacy and other health care disciplines
- 4- Accommodate with the organization administrational processes and measures to provide support to the academic programs
- 5- Encourage high impact scientific research, postgraduate education, and enrich resources.
- 6- Provide high quality continuous pharmacy education and excellent pharmaceutical services to the community.

Program (PharmD) Mission, and Goals

Mission

Provide a professional education that prepares students with competencies and skills to practice effectively in a wide variety of existing and future roles in patient-centered care, research and community services.

Goals

- 1- Graduate medication therapy experts with knowledge, skills and values to meet health care and professional market requirements
- 2- Provide competent students in pharmacy profession capable of effectively participating in foundational scientific research in the fields of pharmacy practice and pharmaceutical sciences
- 3- Foster values and skills of the graduates that promote collaborations with other health care providers to enhance community services and public health awareness.

Alignment Matrix Table between the Operational Plan Objectives for the Program and the University's Strategic Goal

| University Strategic Objectives | College of Pharmacy Strategic objectives | Program Strategic Objectives | Integration and consistency between goals |
|--|--|---|--|
| Improve the quality of teaching and learning | Recruit, develop, and retain distinguished faculty members to improve education and research | Graduate medication therapy experts with knowledge, skills and values to meet health care and professional market requirements | |
| Providing an attractive academic environment | Promote educational environment and cooperation among pharmacy and other health care disciplines | Graduate medication therapy experts with knowledge, skills and values to meet health care and professional market requirements | There is a complete consistency between strategic goal of the University, college, and |
| Promote effective partnership with the community | Provide high quality continuous pharmacy education and excellent. | Foster values and skills of the graduates that promote collaborations with other health care providers to enhance community services and public health awareness. | the program goals. |
| Supporting and developing scientific research | Encourage high impact scientific research, postgraduate education, and enrich resources. | Provide competent students in pharmacy profession capable of effectively participating in foundational scientific research in the fields of pharmacy practice and pharmaceutical sciences | |

| University Strategic Objectives | College of Pharmacy Strategic objectives | Program Strategic Objectives | Integration and consistency between goals |
|---|---|---|--|
| Postgraduate development | Encourage high impact scientific research, postgraduate education, and enrich resources. | Provide competent students in pharmacy profession capable of effectively participating in foundational scientific research in the fields of pharmacy practice and pharmaceutical sciences | |
