

Operation Plan for Community Service in 1445 H

Analysis of Community Services Report for the Year 1444 H

Strength	Weakness
COP Faculty are motivated to share their expertise to benefit society.	A lack of dedicated financial resources may hinder the implementation of large-scale initiatives.
Faculty worked across departments to create comprehensive community service programs.	
Students are eager to contribute to community health initiatives.	
Enhancing collaboration with the University's Volunteer Work Club has strengthened the College of Pharmacy's role in community service.	
Opportunity	Threats
Having a Strategic Plan for the College with Defined Initiatives.	Strict venue requirements and lack of support from commercial complexes, such as insufficient provision of essential facilities like advanced lighting and technology, could hinder the College's ability to conduct impactful voluntary activities.
The university, as part of its strategic objectives, aims to enhance the quality of life and serve the community.	
Recruiting new faculty members provides an opportunity to bring fresh perspectives, innovative ideas, and additional expertise to enhance the College's community service initiatives and expand its outreach efforts.
