

## Operation Plan for Community Services on 1443

College of Pharmacy (COP) developed its five-year strategic plan (2017-2021) in 2016. One of the main points in the College's vision, mission, and strategic goals is to provide high-quality continuous pharmacy education and excellent pharmaceutical services to the community by encouraging college staff (students, faculty members, and employees) to be involved more in the community services events.

### Community Services programs for 1443

Initiatives	Implementation Responsibility	Implementation time frame		
		Achieved	Status	Comments
Establish an awareness campaign about medicines and herbal products, their effectiveness, and their side effects.	Dawa Club			COP is prepared to move to new campuses, which may affect the implementation of some Initiatives.
Conducting School visiting programs to help students be exposed to the college's external partners.	Dawa Club			
Holding student awareness and development lectures.	Dawa Club
