

Operation Plan for Community Services on 1444

Community Services Report in 1443 analysis

Strength	Weakness
There is an improvement in the contribution from the female teaching staff, which is a healthy trend	Absent of KPIs to assess the effectiveness of the participation of both faculty and students in community services.
An increased number of participants in the programs has been shown	Weakness of the collaboration with external partners
College of Pharmacy has become a Bonafede institute to award volunteers' community service (volunteering hours) via the National Human Resources and Social Development platform.	Weakness of the collaboration with departments.
Opportunities	Threats
Two new KPIs will be established in addition to the existing program KPIs. These will help the COP monitor the performance of the faculty and students regarding community services.	Weak financial support for community services
Collaborate with internal and external stakeholders to enhance the performance of the community services programs.	Weak communication with the external stakeholders who can help the college conduct more community service programs
Active participation with the committee will establish the college's new strategy.	

Community Services programs for 1444

Initiatives	Implementation Responsibility	Implementation time frame		
		Achieved	Status	Comments
