Research Operation Plan

College of Pharmacy

1444 H

Prepared by

Dr. Abdullatif Bin Muhsinah

Vice Dean for Research and Postgraduate Studies (VD-RPS)

❖ **College of Pharmacy Research Report analysis in 1443:**

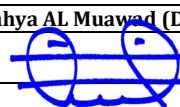

Strength	Weakness
High number of scholarship students (24 students) 9 Male, 15 Female	Slow in the process of purchasing chemicals and other research materials
Moving to a new campus is ongoing.	Limit the number of advanced instruments.
The percentage of publications of faculty members met its target stated last year at 1442 H, which is 95.24% of the total of full-time members who published at least one paper per year.	The citation rate decreased significantly, which means the researcher.
Many research instruments are scattered in the department's laboratory with limited maintenance.	No KPIs for students' research achievements
Opportunities	Threats
Set a plan to allocate all instruments (non-specialized) in one or two research laboratories on each side (Male and female) where the maintenance can be done and made more accessible.	Moving to a new campus may affect the research performance since many instruments will be inaccessible for a long time as well as all the planning of development may be affected.
Every department needs to encourage the staff to a higher number of publications every year by urging them to participate in the university and college level competitions to obtain the best researchers awards and get promotions.	Adding a planned and structured research course for PharmD students may be affected due to the trimester process in the college.
Set a KPI for students' performance in Research since it is one of the program goals	
Plan to order advanced instruments.	

❖ **Action Plans Achievements in 1443**

Initiatives	Implementation Responsibility	Implementation time frame		
		Achieved	Status	Comments
Establish research units/centers that leverage the college's areas of strength in research on the new campuses.	VD-GSSR and Department Chairs	-	ongoing	Two college research labs were assigned for the research on both sides (Male and Female)
Encourage researchers to offer more research proposals for the PharmD students in the last year.	VD-GSSR and VD-CA	Achieved		All departments have been engaged in offering an opportunity for students to conduct research.
Proposing allocating all instruments (non-specialized) in one or two research laboratories on each side (Male and female) where the maintenance can be done and made more accessible.	VD-GSSR and Department Chairs		ongoing	None

❖ **Initiatives for 1444 H**

Initiatives	Implementation Responsibility	Implementation time frame		
		Achieved	Status	Comments
Set a KPI for students' performance in Research since it is one of the program's goals.	VD-RPS	TBD	TBD	TBD
Allocate all instruments (non-specialized) in one or two research laboratories on each side	VD-RPS and Departments			
The Research Design Seminar course (1+2 credit) has been introduced in the New PharmD curriculum.	VD-RPS			
The Animal House establishment proposal has been provided.	VD-RPS and Departments			
Cell-Culture Facility establishment has been introduced.	VD-RPS and Departments			
Research and Professional Development Day conducted	VD-RPS and VD-AAD
